

International SMS content services

The idea

Increase incoming/outgoing P2P SMS traffic in the MNOs network through marketing campaigns.

Solution

By using our SMS content services MNOs get an opportunity to increase their incoming and outgoing P2P traffic and get additional margin. Our SMS number ranges are used as the micropayment solution to get access for different content services like:

Online games

Quizzes

SMS raffles

And many others.

These content services are promoted in any country using internet promo campaigns (digital marketing). A web site of a service is promoted via social networks, Google AdWords, banners etc.

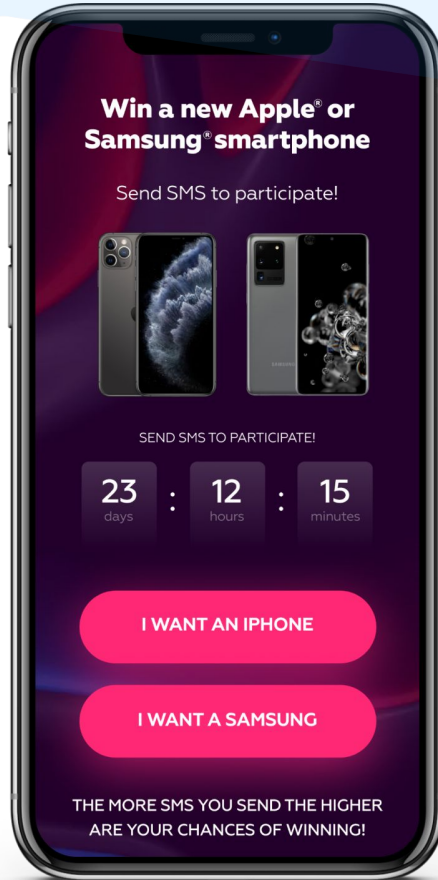

We don't use SMS spam, scamming, missed call and other fraudulent techniques.

Examples of a Services

SMS raffles

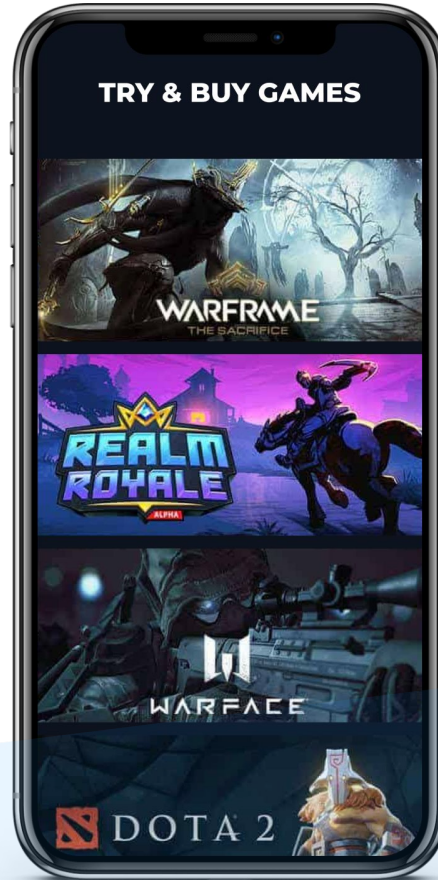

Text to win is one of the most engaging and popular SMS marketing campaigns.

Examples of a Services

Try and Buy games

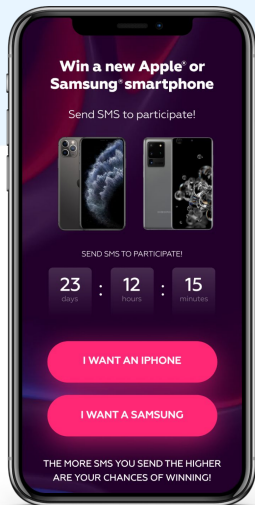

After testing the game the user could buy the full game at an affordable price by sending SMS

Subscriber experience

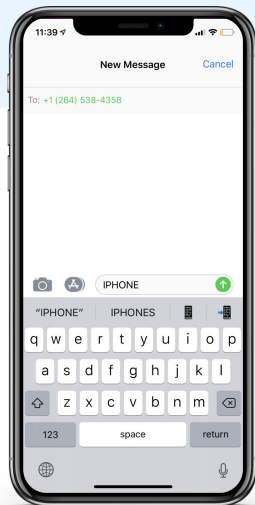

* On the example of phones4sms.com

01.

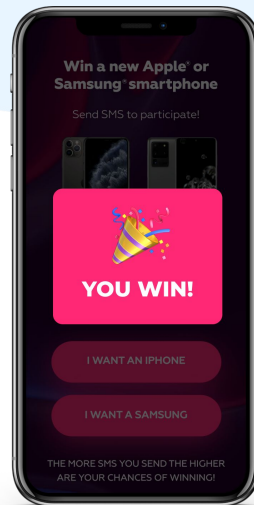

To get the access to the service user clicks "I want an Iphone" or "I want Samsung" button.

02.

During next step user sends sms to +XYZ numbers rented from Your MNO

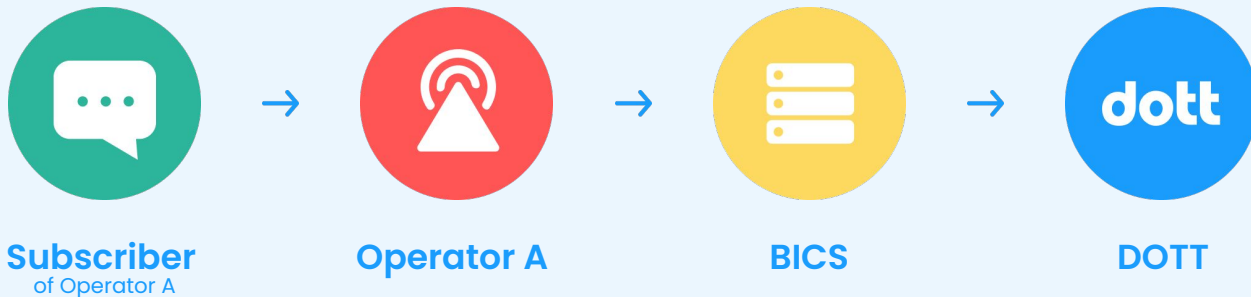

03.

At the end of the campaign we choose a winner and send him a prize

Business case

DOTT collects P2P traffic to own +XYZ ranges from BICS

- 1 Subscriber of the operator A sends international SMS to the +XYZ number to use the service
- 2 Operator A charges its subscriber for the international SMS according to the subscriber tariff plan
- 3 BICS charges Operator A the termination fee to deliver SMS to the XYZ number of DOTT
- 4 DOTT receives SMS to the +XYZ number and charges BICS according to the confirmed rates

Business case Cash flow

On the example of Bharti Airtel subscribers

- 1 Bharti subscriber pays rate per SMS of USD0.10 for the International rated countries
- 2 BICS charges Bharti the termination fee to deliver SMS to the destination number
- 3 DOTT receives SMS to the destination number and charges BICS the termination fee.

Return traffic

DOTT originates BICS 20–25% of P2P traffic

- 1 Bharti subscriber pays rate per SMS of USD0.10 for the International rated countries
- 2 BICS charges Bharti the termination fee to deliver SMS to the destination number
- 3 DOTT receives SMS to the destination number and charges BICS the termination fee.
